

AI FAQ ASSISTANT API

Brainstorming & Idea Prioritization

Prioritizing an AI-assisted FAQ service

TEAM ID	SWTID-2026-8832
TEAM SIZE	5
TEAM	Gokulakrishnan K (Leader); Arunkumar M; Dhina S; Siva A; Gowtham M
DATE	30 September 2026

Opportunity

Users need a simple way to publish and find frequently asked questions, while authors need tools to create, maintain, and improve FAQ content.

Ideas considered

- Account registration, login, and protected profile.
- Public FAQ reading and keyword search.
- Authenticated FAQ creation, editing, and removal with creator ownership.
- Gemini-generated direct answers and structured FAQ pairs.

Priorities

Provide account security and dependable FAQ management first; add public search and reading; then expose authenticated AI assistance.

Project scope

The submitted project is a Node.js/Express REST API using MongoDB and Gemini. A browser/mobile frontend, FAQ import pipeline, and deployment are not included in the archive.
