

AI FAQ ASSISTANT API

Communication

Presentation approach

TEAM ID	SWTID-2026-8832
TEAM SIZE	5
TEAM	Gokulakrishnan K (Leader); Arunkumar M; Dhina S; Siva A; Gowtham M
DATE	30 September 2026

Purpose

Explain how visitors find FAQs, how contributors manage their entries, and how Gemini supports answer drafting.

Suggested speaker roles

- Gokulakrishnan K: project context and scope.
- Arunkumar M: architecture/setup.
- Dhina S: authentication/security.
- Siva A: FAQ CRUD/search.
- Gowtham M: AI generation/testing and future work.

Delivery

Show readable requests and responses; distinguish public routes from protected routes; explain owner checks; do not display tokens or credentials.

Prepare for questions

How are passwords stored? Who can edit an FAQ? What does public search cover? How is generated JSON constrained? What happens when Gemini is unavailable? Which tests actually ran?

Contribution boundary

Suggested speaking assignments do not represent verified coding contributions; source archive does not identify authors by module.
