

AI FAQ ASSISTANT API

Solution Requirements

Functional and quality requirements

TEAM ID	SWTID-2026-8832
TEAM SIZE	5
TEAM	Gokulakrishnan K (Leader); Arunkumar M; Dhina S; Siva A; Gowtham M
DATE	30 September 2026

Functional requirements

- Register and log in users; return JWT and safe user fields.
- Return authenticated user profile.
- Create FAQs for a signed-in user.
- Publicly list and retrieve FAQs.
- Update or delete only FAQs created by the authenticated user.
- Publicly search questions, answers, and categories using q.
- Generate a concise AI answer for a question.
- Generate one structured FAQ question-answer pair for a topic.

Validation and data constraints

Registration validates required fields, email shape, and minimum six-character password. FAQ create validates question, answer, and one of Technology, Education, Health, Banking, General. AI routes require nonempty question/topic strings.

Quality requirements

REST/JSON interface, JWT protection, bcrypt password hashing, Mongoose validation, centralized error handling, and environment-based credentials.

Evidence boundary

Requirements reflect code and README. No response-time target, uptime target, or completed test result was provided.
